You might think that the PowerApps is just for building simple mobile apps. Or just for customizing SharePoint list forms.

But it is much more.

PowerApps in a Nutshell

- Solutions with little or no code
- Usage with a browser or iOS- or Android phones/tablets (in PowerApps app)
- Use with Office 365 account
 - Can be shared to users / groups
- Integrates to Office 365 tools and Microsoft cloud services (e.g. Azure)
- Enables small/quick and more ambitious solutions
