

An aerial photograph of a serene Finnish landscape featuring a calm lake, dense evergreen forests, and several small wooden houses. A semi-transparent collage of circular images, showing various scenes from the same location, is overlaid on the center of the image. The text "CollabDays Finland 5.9.2024" is written in a white, sans-serif font across the middle of the collage.

Custom dialogs

Open a dialog from the ribbon - Javascript

```
function openCustomPageDialog(primaryControl, firstSelectedItemId, selectedEntityTypeName)
{
    // Centered Dialog
    var pageInput = {
        pageType: "custom",
        name: "tp_modaldialogorderbooks_e3e30",
        entityType: selectedEntityTypeName,
        recordId: firstSelectedItemId
    };
    var navigationOptions = {
        target: 2,
        position: 1,
        height: {
            value: 300,
            unit: "px"
        },
        width: {
            value: 50,
            unit: "%"
        },
        title: "Order more books"
    };
    Xrm.Navigation.navigateTo(pageInput, navigationOptions).then(
        function () {
            // Refresh the main form when the dialog is closed
            primaryControl.data.refresh();
        }
    ).catch (
        function (error) {
            // Handle error
        }
    );
}
```

UI...

- Modern vs classic controls?
- Responsive or not?
- Art of embedding

Remember consent dialogs!

Conclusion

- Canvas Power Apps is a versatile tool. You can use it in many places around the Power Platform
- Learn it once, use it everywhere

Bonus!

- If you master canvas Power Apps, you master Power Fx
 - Canvas App
 - Power Pages ([Use Power Fx in Power Pages \(preview\) | Microsoft Learn](#))
 - Dataverse Power Fx columns
 - Low-code plugins ([Low-code plug-ins Power Fx - Power Apps | Microsoft Learn](#))
 - Actions on the ribbon
 - More to come

Thank you!

We truly appreciate your feedback
